Start Date	January 2011
Finishing Date	December 2015
Running State	Finished
Investment	-- €
Description	Writing reports concerning physical accessibility in order to meet the requirements for AENOR to obtain the Certificate of Global Accessibility of some buildings at the University of Valencia.
Goals	Writing a report that reflects: - The location of defects in terms of physical accessibility, according to the UNE-170001 - Proposals for resolving the deficiencies detected, based on the assumption of minimum cost. Adapt certain areas of common or widespread use in selected buildings. We opted for the library network of VLC / CAMPUS.
Results	The most significant results are: 1. The granting of AENOR Certification (UNE 170001:2007) Universal Accessibility "Maria Moliner" Library of the University of Valencia in 2012. Certification was renewed in 2014. 2. Granting AENOR Certification (UNE 170001:2007) Universal Accessibility "Joan Reglà" Library of the University of Valencia in 2014.
