Description	The World Tourism Organization (WTO), through its sector works for education. Themis Foundation has just published the 2013 catalog of academic degrees that have the TedQual quality certification. Regarding this, the University of Valencia has applied for the renewal of TedQual certification for the degree in Tourism of the Faculty of Economics. TedQual is an international certificate of the Foundation that recognizes the quality of the Tourism Programmes in Higher Education.
Goals	TedQual aims to promote improvements in the quality of programmes for education, training and research in tourism. For this, evaluation criteria-universally applicable to any Institution- have been defined, which seek, among others, to measure the effectiveness of the educational system and also the incorporation degree of the needs of the tourism industry and the students of such programmes.
Results	We expect to achieve renewal UNWTO.TedQual international accreditation for tourism degree from the Faculty of Economics of the University of Valencia
